

Beliefs, Common Mission

Beliefs

- 1) Challenging opportunities for all students should be provided through up to date data, research-based information and procedures and special programs aligned to focus on student achievement.
- 2) School attendance should be encouraged by parents and school educators, so each child can be provided with the best opportunities for academic learning.
- 3) Educators, parents and the community share in the lives, responsibility and education of each student.
- 4) Communication among students, teachers, staff, community and businesses should reflect on the well being of every child to be successful adults.
- 5) Safety and security for every student and staff member will be provided to the best of our ability.

Mission

The mission of Friendship Elementary School, in partnership with its community, is to prepare responsible, caring and productive students by providing challenging learning opportunities along with developing their reading and math skills to proficient and advanced levels.
